Rebecca

Typically how it works is that approximately 6-8 weeks prior to the seminar you will receive an acceptance letter to the seminar. The letter will include information on the course, hotel, local airports, etc. It will also include a form for you to confirm enrollment in the seminar. Once you complete the confirmation form, you are officially enrolled in the seminar. However, if you have any questions along the way, you can always contact the laboratory for updated information. Hope this helps! Let me know if you have any other questions.

Danielle,

Thank you for the schedule. I do have another question, though. I sent in the application a couple of weeks ago and was wondering when/how I will hear if there is room and if I can attend. Do you email something or send something in the mail? Thanks for your time.
